The Farm Fresh Market GH is scheduled to take place at the **University of Ghana, Legon, opposite the University Sports Stadium, from May 1–2, 2026.**

We invite corporate sponsors, development partners, agribusinesses, and community brands to support this initiative, strengthening local agriculture, empowering farmers, and improving access to fresh food.

Farm Fresh Market GH (FFGH) is a community-focused farmers' market initiative designed to bring together farmers, wholesalers, households, and consumers in one convenient location to purchase fresh agricultural produce directly from the source.

The two-day event is expected to host a wide range of farmers and wholesalers while welcoming thousands of community members seeking fresh farm produce and a vibrant market experience.

Farm Fresh Market GH provides logistical support for farmers and agribusinesses, creating a vibrant platform to connect with consumers, grow customer bases, and showcase quality products.

The event provides an affordable and healthier alternative to traditional markets by reducing the role of middlemen, thereby enabling farmers to receive fair value for their produce while giving consumers access to fresh and high-quality food at competitive prices.

Beyond the market itself, the event will feature a variety of engaging and entertaining activities for families and visitors.

Expect a vibrant experience filled with a wide variety of food and drinks, all set within a lively atmosphere. With great music and engaging community interactions, every moment is designed to create a truly enjoyable and memorable experience for all attendees.
